MONEY, STOCKS AND GRAIN

A Fairly Active Market, in Which Leading Shares Suffer Material Losses.

At Indianapolis Wheat and Oats Were Weak and Corn Quiet and Unchanged-Ruling Quotations on General Merchandise.

MONEY AND STOCKS.

Increased Activity at New York, Accompanied by Material Finctuations. At New York, yesterday, money on call was easy at 11/2 to 2 per cent., closing

offered at 2. Prime mercantile paper, 4@6 per cent. Sterling exchange was quiet but steady at \$4.86 for sixty-day bills and \$4.88 for

demand. The total sales of stocks were 511,797

shares, including the following: Atchison, 7,620; Chicago Gas, 6,000; Erie, 7,465; Lake Shore, 12.835; Louisville & Nashville, 10,180; Northwestern, 5,370; Northern Pacific, 3,300; Northern Pacific preferred, 72,425; New England, 19,702; Reading, 202,570; Richmond & West Point, 41,465; St. Paul, 14,080; Union Pacific, 7,400.

The stock market was under the hammer during most of the time yesterday, and material losses were sustained in many of the leading stocks. The news of the action on the free-coinage bill in Congress caused a rush to buy at the opening, in which foreign houses, both English and German, were conspicuous. Materially higher quotations resulted, and in a few instances further improvement was made in the early trading. To counteract this influence, however, a rumor that Olcott had resigned from the Richmond & West Point committee, caused a pad break. The losses in the two leading stocks. Lake Shore and Northern Pacific preferred, were about 3 per cent. from the best prices. Reading closed with a substantial gain for the day. The market closed quiet, and for the moment firm, but generally at small fractional losses. Northern Pacific preferred is down 110; Richmond & West Point, 1; the pre-ferred, 24. On the other hand Reading is up 1%; Distillers, 1%, and New England a large fraction.

Government bonds were dull and firm. State bonds were entirely neglected. Closing quotations: Four per cent. reg115% Louis. & Nash 741 Four per ct. coup...1163 L. & New Albany .. 243

[Answers in three weeks.]

Warning to Baron De Steures. CHICAGO, March 25 .- Regarding the report that Baron De Steures holds that the divorce recently obtained by his wife in South Dakots will not be valid in the Netherlands, Elliott Seborowski, the husband of the former baroness, to-day said: "The so-called baron knows better than to waste his fortune in any effort to prove a native-born American to be a Dutch woman, or that a bona fide American decree of divorce is not good and valid the whole world over. My advice to the socalled baron's seemingly many friends would be to stand off and not bring their "baron" so frequently before the American people through the medium of our great press. We are not educated up to the

And the Chicago Wheat Market Shot Upwards, in Spite of His Heavy Sales.

Throwing Over 1,000,000 Bushels Failed to Hold the Price at 8112c, the Top Notch Being 8238c, with the Coie at 8214c.

TRADING AT CHICAGO.

Corn Weaker and then Advanced with the Rise in the Leader. CHICAGO, March 25 .- Ballooning was the word to-day in the wheat pit. To-night the price was soaring majestically 14c over the midget figures of last night. Pardridge tried hard to keep the price from getting above 814c. Around that, it was estimated, he sold fully one million bushels, but the market jumped skyward, while his brokers had still both hands up offering the stuff. The strength was largely due to late Liverpool cables, big buying by Cudahy, and reports that Germany and Russia were getting more involved. Shorts became excited, and there was a sudden bulge in the last few minutes to 82 sc, the close being buoyant at 824c. A good deal of attention was drawn to the fact that Boydon & Co. paid the price to-day for 75,000 bushels straight No. 2 Chicago for export, and for another lot of No. 2 Chicago spring in a special elevator. A premium of 11/20 was bid by another buyer and refused by the owner. There was a good deal of interest in wheat at the opening and prices were higher. The early cables quoted Liverpool and higher, and all domestic markets opened strong, with an advancing tend-dency. The big decline which has taken place during the last few days caused a good deal of covering by shorts, who had a good profit and were disposed to secure it. There was also some buying for a scalp on the long side on the reaction theory. The opening sales for May showed an advance of to from last night's close, and for a short time the feeling was strong, and the market quickly went to 81%c. New about half a million in one lot from Pardridge, and the local demand was also quite sharp for a short time. But the fine weather, the absence of any sensational crop-damage reports, the light clearances from New York, only 57,000 bu of wheat, the unfavorable private cables, and the free selling of Pardridge soon undermined the market, and the strength disappeared, May gradually losing le and selling off to

80%c. It was from this point, during the last hour, that the remarkable upturn oc-Corn started strong, with buying led by Cudahy. Shorts covered freely, while the buying for long account was generous. May opened %c higher, and touched 39% o. But the advance led to free selling, and the buying orders having been filled on the early rush, there was a quick drop to 391sc. The break in wheat about the same time was also a weak factor. With the subsequent advance in wheat the price for corn picked up, and a few moments before the close was 39% @39%c. There was considerable caustic comment on what was alleged to be suspiciously finicky inspection, resulting in the continued small proportion of the speculative grade passing muster. Absence of shipping orders were noted. It was said that elevator men at 24c under May were taking the chance of the price of No. 2 and No. 3 coming close together, and were buying the latter and hedging by selling May. In oats there was not as much demand from shorts as for several days past. Offer-

ings were also moderate, and a steady feeling prevailed. The condition of the provision market was summed up by a leading operator in one word-stagnation. Mainly in sympathy with wheat the feeling was firm, notwithstanding the duliness, and the close was about at the outside prices of the day. Estimated receipts for to-morrow are: Wheat, 220 cars; corn, 440 cars; oats, 215 cars; hogs, 16,000 head. The leading futures

ranged as follows: Options. | Op'ning | Highest. | Lowest. | Closing. Wheat-March Corn-March.. Oats-May... Pork-March. 10.074 \$9.95 \$10.021g \$10.021 10.15 10.0719 Lard-March. 6.15 6.15 6.15 6.15 6.20 5.521₂ 5.571₉ 5.521g 5.571g . ribs-March 5.60 5.574 May

Shipments—Fiour, 6,000 brls; wheat, 63,000 bu; corn, 149,000 bu; oats, 9,000 bu; rye, 4,000

bu; barley, none. MINNEAPOLIS, March 25,-May wheat opened at 77 c, a strong advance over last night. Sellers caused a good gradual de-cline, but the price held above 77c until soon after 10 o'clock, when Cottrell began to unload 400,000 bushel in Chicago that he bought of Pardridge at the opening. This caused a break down to 76%c, but with this out of the way there was a raily, and the "thrilling" reports caused a steady advance to a close on May at 78c for sellers. The bidding was animated at the close, and some of the longs took opportunity to get out from under. There was a large amoun of trading through the day. The cash market was slow on off grades, but No. 1 Northern sold from 120 to 1c above May, and all offerings were taken. The receipts of wheat here were 336 cars and at Duluth and Superior 318 cars. Close: March. closing at 77 2c. May, opening at 77 2c; highest, 78c; lowest, 76%c; closing at 78c. July, opening at 7916c; highest, 8014c; lowest, 7834@7838c; closing at 8014c. On track: No. hard, 7912c; No. 1 Northern, 7812c; No. 2

holders are anxious to sell they do not lower prices; as the demand is light, sales are few. Prices are entirely unchanged. Bright medium ranges, 19 #23c; braid to coarse, 14 #20c; flue light, 16@21c; fine heavy, 14@18c.

Dry Goods.

NEW YORK. March 25.—Business in dry goods was rather better at first as well as second hands, buyers being in better attendance and sales including some round lots. As a rule there is extreme conservatism, and the inquiry for the deliver of goods due shows the tight condition of supplies with jobbers and others. The market was unchanged in any way as regards tone and prices. There seems to be more confldeuce, however, and the print-cloths market again show increased firmness. Jobbers have an offering of bargains in all departments, but there are no open drives. The situation all around is very fair, though there are some joblots of fancy goods.

Metals.

NEW YORK, March 25 .- Pig-iron inactive; American, \$14.75 & 16.25. Copper quiet; lake, 12.100 asked. Lead quiet; domestic, 4.250 asked. Tin strong; Straits, 19.85c bid, 19.95c asked. ST. LOUIS, March 25.-Lead quiet at 3.95c.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most

popular remedy known. Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

CALIFORNIA FIG SYRUP CO. LOUISVILLE, KY. NEW YORK N.Y.

DUN & CO.'S WEEKLY REVIEW

Prices of Commodities 18 Per Cent. Lower than They Were a Year Ago.

The Grumbling Writer on the Trade Situation Involuntarily and Unwittingly Makes a

Good Argument for the McKinley Law.

NEW YORK, March 25.-R. G. Dunn & Co.'s weekly review of trade says: Busis ness indications are not quite so clear. There is on the whole less evidence of improvement in distribution and yet the prospect in the great industries seems brighter. The movement in cotton and grain falls off, and the sharp decline in prices is felt in many quarters, but the tone in the iron, woolen, cotton and shoe manufactures is rather improved. The money markets are abundantly supplied with unusually conflicting signs. The confidence which prevails in business circles

is still upabated. Wheat has dropped to 951sc, a decline of nearly 3c for the week, though stronger in tone at the end, receipts having been 2,500,000 bushels and exports only 870,-000 bushels in four days. Corn is nearly & cent stronger, with exports of 1,344,000 bushels in four days, but oats are 40 lower and pork and lard a shade lower. Oil has declined 234c and coffee 36c. Cotton is down to 640 for middling uplands, although receipts this week have been much less and exports greater than & year ago. The stocks at ports have diminished, but are still 444,000 bales greater than at the same time last year. Silver has failen to 40.44d per ounce, the lowest ever quoted, and at New York only 884c is paid for bullion. The prices of commodities, as a whole, have declined 4 of 1 per cent. during the week, and are now 18 per cent.

goods trade, which is yet quite satisfactory At Bridgeport plush-works are stopped by a strike. At Hartford the wool trade is fair. At Philadelphia sales of dry goods are smaller than of late, though equal to last year's. At Baltimore manufacturers of cotton duck and architectural iron are busy with abundance of orders. At Cincinnati machinery is brisk, surpassing the trade of former years, and retail business brighter. At Cleveland rolling-mills are full of work, though at prices 10 to 15 per cent. lower than ever before. Business in fair to good native steers, \$2.80@4.40; fair dry goods and hardware is good, and to good Indian and Texas steers, \$2.60@ in other branches fair. At Detroit trade is equal to last year's, but has no snap. At Chicago increase is seen in receipts of breadstuffs, dressed beef, cheese and butter, but decrease in provisions, cattle. bides and wool. Merchandise sales are equal to last year's. Unfavorable weather affects spring trade at Milwaukee, and seriously hampers trade at St. Louis, though the feeling is hopeful. At Minneapolis trade is good, though flour is very dull, and at St. Paul business is very brisk, at Omaha very active, and at Kansas City improving in retail business, though receipts in cattle and hogs are light. Improvement is seen at Denver, and also at Louisville, but Memphis reports no improvement, Montgomery a moderate trade, and Savannah some decline. At New Orleans business is quiet, though there is a better movement of cotton, and sugar is

active. The iron trade shows a better tone in spite of very low prices. Larger sales of pig are reported since the recent decline, and there is less pressure to sell. Structural iron is fairly active, with better prospects, and iron is more active, and there is improved demand for plates. The stronger market for copper here and abroad is counted proof that a combination has been formed. Tin is stronger and lead fairly active. The woolen manufacture is doing unusually well for the season, though very low prices and sharp foreign competition in some branches are seriously felt. The cheapness of cotton helps the manufacture, the more because the demand fairly sus tains the price of goods.

Merchandise exports exceeded imports in February by \$21,256,124. The exports of domestic products have fallen off, and for three weeks of March are about \$656,000 larger at New York than a year ago, while imports have been \$4,500,000 larger, indicating for the month a considerable increase in imports. But for the uncertainty how far foreign relations will affect money and business here, the general confidence in the future of trade would seem to be

instiffed. The business failures occurring throughout the country during the last seven days number 281, as compared with totals of 246 last week. For the corresponding week of

last year the figures were 256. ____ Riot ie an Ohio Town. KENT, O., March 25 .- An outbreak in the nature of a riot occurred here early this morning, which for a time threatened serious results. Yesterday some Erie switchmen were discharged and new men put in their places. After night the discharged men and their friends gathered in the yards and demanded reinstatement. Being refused they attacked the new men. The police interfered and quiet was restored, but after midnight the men attacked the police with revolvers. The fire was returned and a rattling fusillade followed ending in a victory for the police. Two of the mob were badly wounded.

John L. Views the Bulls and Bears. CHICAGO, March 25 .- Pugilist John L. Sullivan mingled with the bulls and bears on the Board of Trade to-day. It was suggested that he had been brought up by the short seiler Pardrige to smash the market, but he made no hostile demonstration, and his march through the trading pit was triumphal. A big crowd followed him and the cheers were loud and hearty. The noted bruiser spent a short time in the gallery curiously watching the hundreds of price); dealers pay 18 20c.
